## Tuneprompter For Mac

I'm struggling hard to find an app to do this on Mac I tried "KantoSyncro" and "iKaraoke Tune Prompter", but both seem cumbersome and the sync process is a real pain.. But the problem actually takes place when the consumer provides the selection of songs but finds it challenging everytime when he offers to get a particular melody from such a huge collection.. No, I'm not kidding! I'm currently working on an installation/project with children, and I'd love to be able to create my own video files to display synced lyrics with a "status" color (you know, this scrolling effect).. What i'd love is the ability to see the waveform and be able to adjust the word's position according to it.. There are usually many users who appreciate listening to songs and like to gather all their.. Any idea, help? Someone here must have done this before for someone's wedding!. So here arrives a player which will not only assist you organize your songs selection and also offers you with thé lyrics of songs for you to improve your.
